Start at the entrance of the library.  
Walk due south to where the daily news arrives each day.  
Once there, turn southwest and enter the garden.  
Follow the path to the bench where memories of "Pop" Petrosinelli reside.  
Continue west on the path and locate a home for birds-peek in, anybody home?

Continue west passing a stone circle on your right.  
Stop at the fork, and continue north then west  
passing by another "memorable" bench to a tri-rock formation.  
Walk between the rocks and then head northwest to an "avian watering hole."  
Pass the watering hole to the last bench at the end of the garden.  
Carefully, locate the letterbox under the bench's southern most corner.  
Congratulations-you've found it!
